**Thank You for Supporting Women in Construction**

Your donations will help us reach our 2022-2023 fundraiser event goal of \$35,000 for our scholarship fund and education programs. Our scholarship fund supports students who wish to enter the construction industry as a career, by assisting with apprenticeship programs, as well as related college degree programs, such as CAD, engineering, and project management. Our education programs benefit our block kids, design drafting, community service and adult education programs.
